Python - Experienced

Summary

Passionate and ambitious Computer Science student. With a deep-rooted love for technology and a knack for problem-solving, I am constantly seeking opportunities to expand my skills. Through my coursework and personal projects, I have gained expertise in HTML, CSS, JavaScript and other web development technologies.

Experiences

Participation in First Tech Challenge with Robotics Team XEO
Competition that const in designing, building, and programming robots which need to complete certain challenges but also in interaction between teams and organizing events.

Xeo Team Presentation Website

A presentation website that presents details about the team, organized events, team members and alumni and the team timeline.
Technologies used: HTML, CSS, JavaScript

Valentine's Day website

Website made in collaboration with Interact club that helps high school student from Alba Iulia to find a date for Valentine's Day by making an account and complete a personality test. 800 accounts were created in 3 days.

Technologies used: HTML, CSS, JavaScript, PHP, MySQL

Task automation platform

Website that based on a subscription, helps users automate certain tasks by giving them access to a script.

Technologies used: HTML, CSS, JavaScript, PHP, MySQL, Python , AWS

Social involvement

Member of Interact Alba Iulia

A non-governmental organization for young people aged 14-18 that organize projects that helps their school or community.

Volunteer at an adventure park

My role was to provide assistance, support, and ensure the safety and enjoyment of visitors.
